CLEAPSS 2025 LOGIN Update

Access to the latest health and safety guidance is a legal requirement for your staff - Do not ignore this email!

- Health and safety advice for practical subjects in your school is provided by CLEAPSS.
- You already have CLEAPSS membership and your staff currently log in using a centrally generated password.
- This is changing. By **January 31st 2025** all staff will need to have set up an individual login to continue to access CLEAPSS services.

What you need to do:

- Someone from your school will need to activate your CLEAPSS account by visiting the link <https://my.cleapss.org.uk/Account-Request.aspx>
 - **For secondary schools** - this could be the head of department or the senior technician in the science, D&T or art departments, or someone from the senior leadership team who leads on safety matters in the school.
 - **For primary schools** - this could be the headteacher or another person with overall responsibility for health and safety matters.
- Remember that CLEAPSS advice covers design and technology, food and art as well as science. Teachers and technicians from these departments need to be invited too. Site Managers and H&S officers will also find our resources useful.
- **If you are the list administrator or default contact you need to invite all staff members who require access to CLEAPSS services. You can use the bulk invite feature to help with this.**
- For further information please search “individual logins FAQ” on any of our websites.
- The set-up process usually takes around 10 minutes to complete.

If you have any questions, please contact CLEAPSS by email office@cleapss.org.uk or call the CLEAPSS Helpline on 01895 251496.
