

Establishing the question and teaching key information for the enquiry.

Data gathering sessions through the year

What data needs to be gathered?

When will this data be gathered?

How will it be gathered?

How will children be supported in gathering this data?

How will the data be analysed?

Putting the pieces together

How will the gathered data be brought together?

How will children be supported in drawing conclusions?

How will they be supported in writing their conclusion?

Will their conclusions be shared?

Aspect of working scientifically being taught:

-
-

Data recording that will be taught:

-
-

Key Ideas being developed:

-
